

## **Břitva Awards ceremony to take place March 14, 2015**

**On Saturday, March 14, 2015, the Brno based club Melodka shall for the eighth time host the traditional award ceremony of the 14<sup>th</sup> installment of the Czech rock and metal Břitva Awards.**

As usual, handing out of the awards, be it for the best albums, festivals or media, is only one part of the program. The other, in all likelihood more attractive for the audience, part consists of live shows of five Czech hard n' heavy bands. Spearheading the line-up are **ADOR DORATH**, who after several years of silence returned with an excellent album "The Very Essence of Fire". Also included are **ET MORIEMUR**, currently reaping rightful acclaim for their new album "Ex Nihilo In Nihilum" which can be considered the best Czech doom metal album of recent years. Appearing for the first time in the history of the Awards is also one of the projects of Lord Morbivod, namely **STÍNY PLAMENŮ** with their sewer black metal, whose discography was expanded last year with a very good album "Propadlé vody". Completing the roster are the progressive power metal superheroes **ASCENDANCY** who recently attracted attention with their latest album "The Amazing Ascendancy versus Count Illuminatus", as well as the gothic metal act **MISTY WAYS** whose debut album "Train of Lust" was released last year. On top of all that, the ceremony shall also witness the traditional inauguration of three historically significant Czech bands into the Gallery of Legends.

Who will get which award shall once again be decided by voting of Czech hardrock and metal journalists that will take place, as is customary, during February.

The presale for the Award ceremony is up and running. You can get your tickets either in Brno in the Indies shop, or on MetalGate e-shop which includes e-tickets as well.
